Iris Case Analysis

1. What would you say is the general color constitution of this person?
 - A. Lymphatic
 - B. Biliary
 - C. Hematogenic

Briefly describe three potential health characteristics for this type.

- a. _____

- b. _____

- c. _____

2. What subtype(s) according to color would you say describe(s) these eyes? Choose a subtype as well as the degree (mild, moderate or significant) by checking off the appropriate box. Whatever does not apply, check off the "N/A" box.

Overacid	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Febrile	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Hydrogenoid	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Uric Acid Diathesis	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Scurf Rim	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Ferrum Chromatose	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A

Briefly describe what the identified subtypes according to color tell you about this person.

3. Do these eyes show any indication of lipemic diathesis / corneal arcus?
 A. Yes
 B. No

If yes, briefly describe what it could mean.

4. What subtype(s) according to structure / physical integrity would you say describe(s) these eyes? Choose a subtype as well as degree (mild, moderate or significance) by checking off the appropriate box. Whatever does not apply, check off the "N/A" box.

Neurogenic	<input type="checkbox"/> deficient	<input type="checkbox"/> basic	<input type="checkbox"/> dense	<input type="checkbox"/> N/A
Connective Tissue	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Polyglandular	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A
Anxiety Tetanic	<input type="checkbox"/> mild	<input type="checkbox"/> moderate	<input type="checkbox"/> significant	<input type="checkbox"/> N/A

Briefly describe what the identified subtypes according to structure tell you about this person.

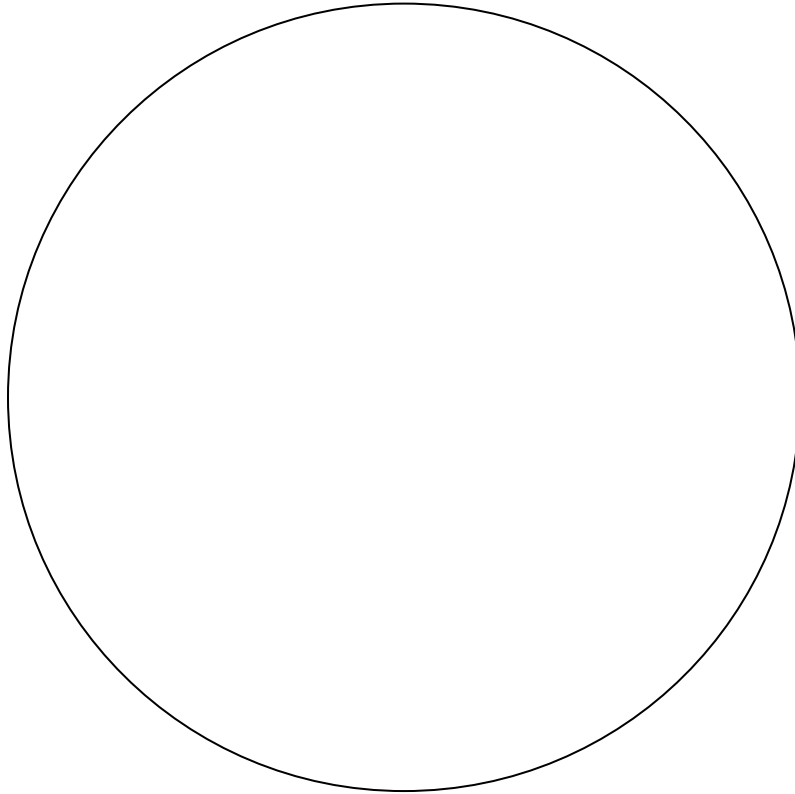

5. On the next page, draw the pupils in the shape(s) seen in the case. Describe any potential meaning(s) to the shape and size of the pupils.

Right

Left

6. To the sketch, draw up to three significant structural signs in the appropriate locations and label them (A, B, C). Briefly describe why you chose these particular signs and what they might mean. Note: if there are no significant signs, simply state that there are none.

A.

B.

C.

7. Is there any significant specific pigmentation to either eye? If yes, briefly describe the color and location as well as what the pigmentation may signify. If none, state that there is no significant pigmentation.

8. Based on all that you see in these eyes, how well would you say this individual may be able to resist illness?

- A. Very Resilient
- B. Resilient
- C. Moderate
- D. Mild

www.iridologyassn.org

Briefly describe the reasons for your determination.

9. Now that you have completed your evaluation, summarize your findings to the client on the next page. Tell him/her what you have learned. Then write a detailed analysis telling about their constitutional type, where their inherent weaknesses are and what they can do to be healthy and prevent problems down the road. Remember that you do not want to overwhelm the client with data but to provide information that will be most helpful.
